

Denish Sharma

Full Stack Developer • BCA Graduate

+91 9409401183 | denishsharma701@gmail.com | denish-sharma | Deniish

Technical Skills

Languages: C, C++, Java, Python, PHP, JavaScript (Node.js), HTML5, CSS3, Vanilla CSS

Frontend: React.js, Redux

Backend: Express.js, REST APIs, JWT, Email.js

Databases: SQL, MySQL, SQLite, MongoDB

Tools: Git, GitHub, Postman, Streamlit

Productivity: Excel (Advanced), OpenOffice, Google Sheets

Cloud & AI: Google Cloud, Vertex AI, GenAI (Gemini, Imagen), ChatGPT, SAS Studio

Experience

React Intern – Toshali Infotech

| June 2024 – September 2024, Surat, India

- Developed responsive React apps using HTML, CSS, JS, and followed modern UI/UX principles for optimal performance.
- Implemented Redux for scalable state management, improving component efficiency and reusability by 40%.
- Contributed to Agile sprints, code reviews, and pair programming, accelerating feature delivery cycles.

Cashier & Administrative Assistant – King's Corner

| June 2023 – February 2024, Surat, India

- Handled high-volume cash and digital transactions, ensuring accurate reconciliation and timely daily sales reporting.
- Oversaw inventory management and vendor billing, improving stock turnaround and reducing operational delays by 25%.
- Managed employee payroll processing and financial records using Google Sheets and Excel, increasing data accuracy by 30%.

Projects

UniSphere – GitHub

| December 2024 – April 2025

- Developed a full-stack AI entertainment platform using the MERN stack with JWT auth, REST APIs, and a responsive UI for movies, anime, series, and books.
- Implemented ChatGPT-powered content recommendations and personalized watchlists, boosting user engagement by 30% and reducing wait time by 3 minutes.
- Engineered a serverless chatbot with modular NLU/NLG and Gemini AI integration, achieving 99.99% uptime and increasing interaction rates by 15%.
- Tech Stack:** MongoDB, Express.js, React.js, Node.js (MERN Stack), HTML5, CSS3, RESTful APIs, JWT, ChatGPT, Email.js, Git, GitHub

AI-Chat-M.A.Y.A. – GitHub

| July 2024 – October 2024

- Built a modular chatbot framework using the MERN stack and Gemini AI, supporting dynamic NLU/NLG for full-stack conversational experiences.
- Reduced query resolution time by 45% through adaptive context handling and real-time module swapping.
- Deployed via a serverless, event-driven architecture with RESTful APIs, achieving 99.99% uptime and scalable microservice integration with ChatGPT.
- Tech Stack:** MongoDB, Express.js, React.js, Node.js (MERN Stack), RESTful APIs, ChatGPT, HTML5, CSS3, Git, GitHub

Education

Bachelor of Computer Application

| August 2022 – May 2025

SDJ International College, VNNGU

Certifications

Technical Analysis Fundamentals – SDJ International College, VNNGU

| September 2023

Power BI for Data Analytics – SDJ International College, VNNGU

| February 2024

Excel Beyond Basics – SDJ International College, VNNGU

| December 2024

Business Analysis Using SAS Studio – SDJ International College, VNNGU

| March 2025

Gen AI Academy – Google Cloud & Hack2Skill

| July 2025
